PROFESSIONAL SUMMARY

Senior QA Automation Engineer with 9+ years of experience across SaaS, food-chain retail, and data analytics domains. Skilled in designing and maintaining UI and API automation solutions using Java, Selenium WebDriver, and REST Assured; integrating automated regression checks into Jenkins CI/CD; and supporting quality engineering through application log analysis, SQL/ETL validation, and defect investigation. Experience working with AWS, Azure, Docker, and Kubernetes in testing and CI workflows, with a focus on maintainable automation, reliable test coverage, and effective collaboration in Agile teams.

TECHNICAL SKILLS & CORE COMPETENCIES

UI & API Automation: Selenium WebDriver, REST Assured, TestNG, Cucumber, API testing, UI testing, automation framework design
Programming & Data: Java, SQL; Python and Playwright (working knowledge); ETL and data validation
Cloud & Containers: AWS, Microsoft Azure, Docker, Kubernetes
CI/CD & Build: Jenkins, Maven, Gradle, Git, Bitbucket
Quality Engineering: Test planning, test design, manual and functional testing, smoke, regression, integration and end-to-end testing; defect lifecycle and triage
Log Analysis & Reporting: Application log analysis, troubleshooting, defect triage, Allure, ReportPortal
ETL & Data Testing: SQL, Informatica, Reltio MDM, Qubole
Test Management: Jira, TestRail, Agile/Scrum
AI-assisted Productivity: ChatGPT and GitHub Copilot (working exposure)

PROFESSIONAL EXPERIENCE

Senior Automation Engineer | LogicMonitor India LLP

Pune, India (Remote) | Jul 2021 - Present | 5 years 3 months as of Oct 2026

Project: Santaba | SaaS

- Designed, enhanced, and maintained UI and API automation frameworks using Selenium WebDriver, Java, and REST Assured.
- Built and maintained automated regression coverage and integrated test execution into Jenkins CI/CD pipelines.
- Created and maintained Jenkins jobs and pipeline workflows to support scheduled and on-demand regression execution.
- Performed API validation with REST Assured and supported functional and regression testing of application workflows.
- Analyzed application logs to investigate test failures and application behavior, troubleshoot issues, and support defect triage and root-cause analysis.
- Worked with AWS, Azure, Docker, and Kubernetes technologies in support of testing and CI workflows; collaborated with cross-functional teams in Agile ceremonies and reviewed test scenarios and automation scripts.

PROFESSIONAL EXPERIENCE (CONTINUED)

Senior Quality Analyst | ImpactQA Software Testing and QA Services Pvt. Ltd.

Noida, India | Apr 2020 - Jul 2021

Project: Vita Mojo | Food-chain retail

- Developed and maintained Selenium-based UI automation tests and Java/REST Assured API test coverage.
- Supported continuous integration by connecting automated test execution with Jenkins pipelines and Bitbucket workflows.
- Prepared and executed functional, smoke, and regression test scenarios within Agile sprint cycles; collaborated with the team on test planning and defect follow-up.

Software Development Analyst | IQVIA

Bengaluru, India | Jan 2017 - Apr 2020

Project: CDW (Commercial Data Warehouse) | Domain: Data Analytics

- Performed ETL and data validation across Informatica, Reltio MDM, Qubole, and SQL-based workflows.
- Automated ETL and REST API scenarios using Java; validated data pipelines, transformations, and data quality outcomes.
- Designed test cases for manual and automated workflows and executed smoke and regression testing with clear defect and test reporting.

Project: Nexus Marketing | Domain: Marketing

- Developed Selenium WebDriver UI automation scripts using Java, Maven, and TestNG to validate marketing channel modules.
- Used SQL and functional test scenarios to support application validation and regression coverage.

EDUCATION

B.Tech, Information Technology | Chhatrapati Shahu Ji Maharaj University, Kanpur | 2016

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- ISTQB Certified Tester - Foundation Level (CTFL)
- Selenium WebDriver with Java - Udemy course
- REST API Automation - Udemy course
